# GM GEARWRENCH

## A FULL LINE OF INDUSTRIAL AND AUTOMOTIVE HAND TOOLS

GEARWRENCH® industrial and automotive hand tools have the features technicians look for to help them do their jobs better. Strength, durability, and innovative design have been hallmarks of the brand ever since it introduced the original ratcheting combination wrench in 1995, and GEARWRENCH has continued to build its reputation for quality and value ever since.

### WRENCHES

GEARWRENCH has been an innovator of wrenches since our beginning. All of our ratcheting wrenches, wrenches, and combination wrenches aim to meet the demanding needs of professional users and auto enthusiasts alike.

Stubby Standard & Flex    Combination & Flex-Head    Indexing    Reversible    GearBox™ Standard & Flex    QuadBox™    90T Standard & Flex    120XP Standard & Flex    S-Shape    Half Moon

### RATCHETS & DRIVE TOOLS

The wide line of GEARWRENCH ratchets and drive tools offers both auto techs and industrial mechanics an impressive arsenal of tools to accomplish just about any job.

Roto Ratchet    Pass-Thru    Quick Release    90T Stubby & Flex Head    90T Teardrop    90T Long Handle    90T Flex Head    90T Locking Flex Head    120XP Teardrop    120XP Long Handle    120XP Flex Head    120XP Locking Flex Head

### SOCKETS

The only thing that might work harder than you is your tools. So grab our tried and true GEARWRENCH sockets or socket sets. For the right socket for your job, trust the brand that professional auto techs rely on.

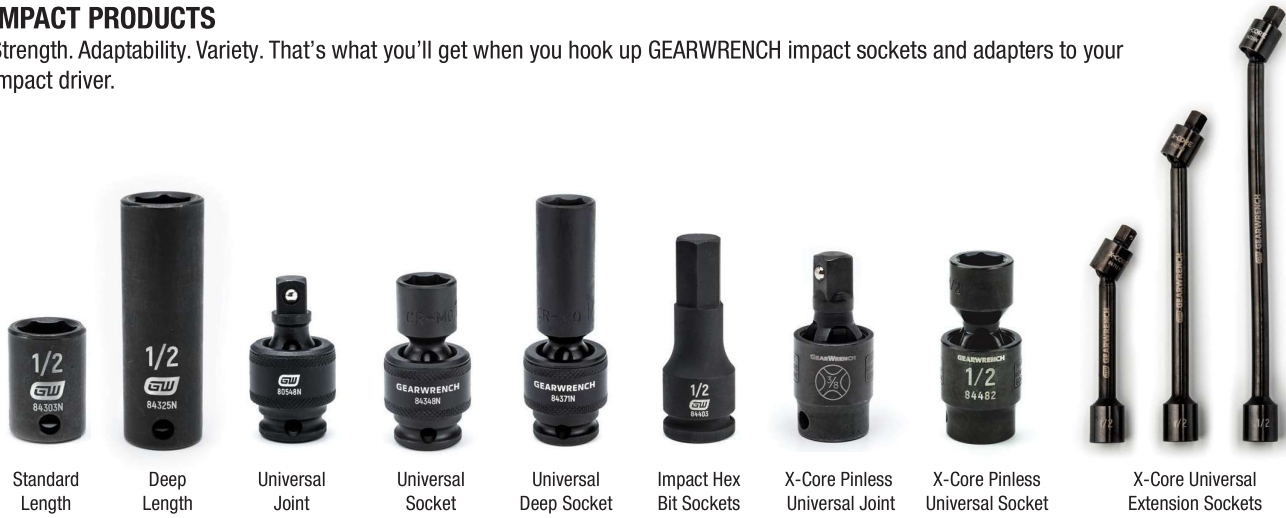

Stubby    Standard    Deep    Flex    Stubby Bit Drivers    Hex Bit    Torx® Bit    Tamper-Proof Torx® Bits    External Torx® Bits

## IMPACT PRODUCTS

## TOOL AND CHAIN SAFETY TRAINING PROGRAM

At GEARWRENCH Industrial Hand Tools, we are committed to end user safety. Our professional line of tools is made with safety in mind. We always find a balance between functionality, innovation, and safety.

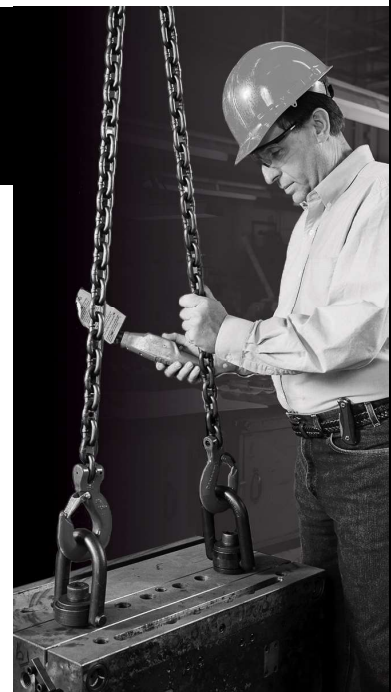

Our brands are the most trusted names in the industrial market. We work collaboratively with distributors across the globe to make sure end users have the tools they need to solve real world problems.

We offer many different hand tool and chain safety training courses. Our tool experts provide fun, informative, high quality safety training to your employees at no cost to you. We have an in depth presentation and short quiz for each course. All attendees receive a certificate of recognition at the completion of training.

These programs are designed to:

1. Fulfill OSHA requirements for regular safety training
2. Help implement safer working environments
3. Make sure employees know how to work safely
4. Reduce your costs associated with workers compensation claims, labor replacement, and lost time due to injuries

**For more information about our safety training program contact your local End User Specialist!**

# CRESCENT

## MECHANICS HAND TOOLS, MEASURING TOOLS, CUTTING TOOLS, AND MORE

The Crescent brand has been relied on by generations of professional tradesmen since it introduced its original adjustable wrench in 1907. The brand has grown over the years, now offering a wide array of quality products to serve the needs of professional tool users in construction, industrial maintenance, energy, transportation, and more.

### CUTTING

Get the edge you need with the extensive Crescent line of products including snips, shears, scissors, knives, saws, and trade tools. For industrial cutting strength, turn to the Crescent line of manual cutters, hydraulic cutters, pneumatic cutters, and accessories.

Aviation Snips

Tinner Snips

Field Office

## ADVANCED TECHNOLOGY FOR INDUSTRY-LEADING TOOL SOLUTIONS

Our expertise is a culmination of 120 plus years of delivering assembly, material removal and drilling and riveting tools and systems for a wide range of applications in the automotive, aerospace, white goods and heavy machinery manufacturing industries. Cleco is differentiated by our superior quality and performance across a wide range of tools that consistently offer innovative, long-lasting and safe solutions.

### CELLCLUTCH™ CORDLESS NUTRUNNERS

CellClutch™ is the newest innovation in cordless clutch tools. This is the perfect upgrade from pneumatic tools.

Programmable rundown strategies help eliminate expensive errors ensuring quality and accuracy from the start.

A mechanically adjustable clutch provides a positive shut off that controls torque output.

Single Battery Platform across the entire cordless range to reduce complexity and costs.

Right Angle

Pistol Grip

### ASSEMBLY TOOLS

Our corded and pneumatic assembly tools offer increased productivity, improved quality, and reduced downtime with real-time, data driven results for those assembly applications in which safety is critical.

Impact Wrenches

Inline Impacting Driver

Nutrunners & Screwdrivers

### GRINDERS & MATERIAL REMOVAL

When it comes to fine finishing applications such as die grinding and de-burring, no tools are better suited for the job than Cleco grinders. Designed for the toughest work environments, they are built for your industry's most demanding projects.

**DROP FORGED STRENGTH.  
AMERICAN MADE QUALITY.**

Over the decades, thousands of tough applications and just as many demanding customers have forged the Campbell brand. Today, Campbell industrial rigging solutions stand for strength. Campbell industrial fittings are closed-die drop-forged for superior strength and performance, and all alloy lifting chains and associated alloy chain fittings are 100% load-tested to at least 2X the working load limit as proof of their reliability.

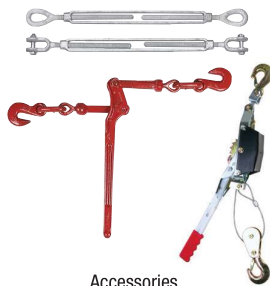

**CHAINS & FITTINGS**

Whether you're positioning 6-metric ton steel plates on a new bridge or trucking heavy equipment and structures cross-country, there's no rigging job too challenging for Campbell.

Fittings & Slings

Blocks

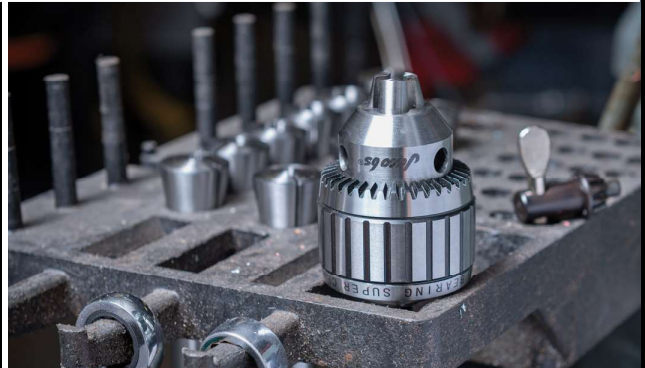

Clamps

**THE LEADER IN CHUCKS FOR 120 YEARS**

The Jacobs Chuck Manufacturing Company maintains a global presence as a recognized leader in the design manufacture of precision tool and work holding devices for stationary equipment and portable power tools. It's a tradition that began with A.I. Jacobs a century ago when he set up his first network of distributors for the toothed sleeve and keyed drill chuck. It's a tradition we will carry forward with you.

**CHUCKS & ACCESSORIES**

In 1902, Jacobs invented the first patented drill chuck in the world. Since then, we have been a world leader in advanced technology of power tool drill chuck.
