## A Full Line of Industrial and Automotive Hand Tools

GEARWRENCH® industrial and automotive hand tools have the features technicians look for to help them do their jobs better. Strength, durability, and innovative design have been hallmarks of the brand ever since it introduced the original ratcheting combination wrench in 1995, and GEARWRENCH has continued to build its reputation for quality and value ever since.

### WRENCHES

GEARWRENCH has been an innovator of wrenches since our beginning. All of our ratcheting wrenches, wrenches, and combination wrenches aim to meet the demanding needs of professional users and auto enthusiasts alike.

### RATCHETS & DRIVE TOOLS

The wide line of GEARWRENCH ratchets and drive tools offers both auto techs and industrial mechanics an impressive arsenal of tools to accomplish just about any job.

### SOCKETS

The only thing that might work harder than you is your tools. So grab our tried and true GEARWRENCH sockets or socket sets. For the right socket for your job, trust the brand that professional auto techs rely on.

## IMPACT PRODUCTS

Strength. Adaptability. Variety. That's what you'll get when you hook up GEARWRENCH impact sockets and adapters to your impact driver.

## TORQUE PRODUCTS

Regardless of industry, when there is a precise application of torque required, the strength and durability of GEARWRENCH tools will get the job done.

## EXTRACTION TOOLS

Whether you need it removed, loosened, or tightened, there's a GEARWRENCH extraction tool for that. Our Bolt Biter extraction sockets, screwdrivers, and nut drivers are ready to perform when you get your hands on them.

## TOOL SETS

You take your auto repair and fine-tuning seriously. Let your tool sets reflect that with the expertly crafted drive tools, sockets, wrenches, ratcheting wrenches, pliers, and screwdrivers only found in a GEARWRENCH set.

## PLIERS

When you're cutting, bending, or gripping all day long, you want to do it with confidence. With GEARWRENCH, you can trust in the variety and versatility of all our pliers.

## Drop Forged Strength. American Made Quality.

Over the decades, thousands of tough applications and just as many demanding customers have forged the Campbell brand. Today, Campbell industrial rigging solutions stand for strength. Campbell industrial fittings are closed-die drop-forged for superior strength and performance, and all alloy lifting chains and associated alloy chain fittings are 100% load-tested to at least 2X the working load limit as proof of their reliability.

## CHAINS & FITTINGS

Whether you're positioning 6-metric ton steel plates on a new bridge or trucking heavy equipment and structures cross-country, there's no rigging job too challenging for Campbell.

## The Leader In Chucks For 120 Years

The Jacobs Chuck Manufacturing Company maintains a global presence as a recognized leader in the design manufacture of precision tool and work holding devices for stationary equipment and portable power tools. It's a tradition that began with A.I. Jacobs a century ago when he set up his first network of distributors for the toothed sleeve and keyed drill chuck. It's a tradition we will carry forward with you.

## CHUCKS & ACCESSORIES

In 1902, Jacobs invented the first patented drill chuck in the world. Since then, we have been a world leader in advanced technology of power tool drill chuck.

## Advanced Technology For Industry-Leading Tool Solutions

Our expertise is a culmination of 120 plus years of delivering assembly, material removal and drilling and riveting tools and systems for a wide range of applications in the automotive, aerospace, white goods and heavy machinery manufacturing industries. Cleco is differentiated by our superior quality and performance across a wide range of tools that consistently offer innovative, long-lasting and safe solutions.

### CellClutch™ CORDLESS NUTRUNNERS

CellClutch™ is the newest innovation in cordless clutch tools. This is the perfect upgrade from pneumatic tools.

Programmable rundown strategies help eliminate expensive errors ensuring quality and accuracy from the start.

A mechanically adjustable clutch provides a positive shut off that controls torque output.

Single Battery Platform across the entire cordless range to reduce complexity and costs.

# APEX

## Global Leader in Fastener Drive Tools Since 1933

From manufacturing to critical repair operations, companies demand drive tools that are high precision, reliable, and durable. APEX is one of the world's largest manufacturers of industrial fastener drive tools such as industrial-grade screwdriver bits, sockets, extensions, bits and adapters. For more than 80 years, APEX has manufactured high-performing fastener drive tools for the automotive, aerospace, energy, electronics, transportation, and other general industrial manufacturing applications.

### FABRICATION TOOLS

The Apex line of precision machined, industrial grade fastener drive tools has evolved into the brand of choice for all leading assembly and MRO plants around the world.

Screwdriver Bits

Bit Holders

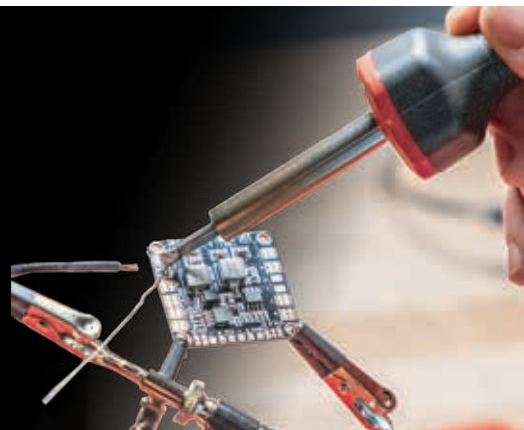

Impact Sockets

# Weller

## Solutions For Every Soldering Job

For decades, the Weller name has stood for pioneering soldering solutions. Weller is the global leader in manual soldering technology and offers a complete, user-oriented customer and distribution service, with their own sites in over 30 countries. By expanding its product portfolio, Weller Tools is setting new benchmarks while laying the foundation for complete expert workbench solutions from a single source.

### SOLDERING

Your workbench deserves the best soldering technology. Professionalism makes no compromises: Soldering technology that is packed with precision, innovation, and quality for a decisive advantage when it comes to your productivity.
